Colored Office-Holders.

Northern and Western papers of the Republican type are requested to take notice that a colored man, Mr. Ingliss, has been appointed jury commissioner for Charleston county. He has been in office for a number of years. His predecessor, Mr. Holloway, was likewise a colored man and was appointed, we believe, by Governor

Wade Hampton. The action which has been taken by the Governor was, therefore, not intended to affect Gen. Harrison's Southern policy or to curry favor with anybody. Apropos of colored men, it should be remarked that there is a considerable number of colored policemen in Charleston, and this has been the case for many years .- News and Courier.

Blind for Eleven Days.

A Woman from Austria.

Near the village of Zilling-

dorf, in Lower Austria, lives

Maria Haas, an intelligent and

industrious woman, whose story

of physical suffering and final

relief, as related by herself, is

of interest to English women.

"I was employed," she says,

"in the work of a large farm-

house. Overwork brought oon

sick headache, followed by a

deathly fainting and sickness

of the stomach, until I was

unable to retain either food or

drink. I was compelled to

take to my bed for several

weeks. Getting a little better

from rest and quiet, I sought

to do some work, but was soon

taken with a pain in my side,

which in a little while seemed

to spread over my whole body,

and throbbed in my every limb. This was followed by a cough

and shortness of breath, until

finally I could not sew, and I

took to my bed for the second,

and, as I thought, for the last

time. My friends told me that

my time had nearly come, and

that I could not live longer

then when the trees put on

their green once more. Then I

happened to get one of the Sei-

gel pamphlets. I read it, and

m7 dear mother bought me a

bottle of Seiger's Syrup,

(Shaker Extract of Roots)

which I took exactly according

to directions, and I had not

taken the whole of it before I

felt a change for the better. My

last illness began June 3d,

1882, and continued to August

9th, when I began to take the

Syrup. Very soon I could do a

little light work. The cough

left me, and I was no more

troubled in breathing. Now I am perfectly cured; and oh;

how happy I am! I cannot

express gratitude enough for

SEIGEL'S SYRUP (Shaker Extract of Roots). Now I must

tell you that the doctors in our

district distributed handbills

cautioning the people against

the medicine, telling them it

would do no good, and many

were thereby influenced to de-

stroy the Seigel pamphlets; but

now, whenever one is to be

found, it is kept like a relic.

The few preserved are bor-

rowed to read, and I have lent

mine for six miles around our

district. People have come

eighteen miles to get me to buy

the medicine for them, know-

ing that it cured me, and to be

sure to get the right kind. I

know a woman who was look-

ing like death, and who told

them there was no help for her,

that she had consulted several

doctors, but none could help

her. I told her of Seigel's

Syrup, and wrote the name

down for her that she might

make no mistake. She took

my advice and the Syrup, and

now she is in perfect health,

and the people around us are amazed. The medicine has

made such progress in our

neighborhood that people say

they don't want the doctor any

more, but they take the Syrup.

Sufferers from gout who were

confined to their beds and could

hardly move a finger have been

cured by it. There is a girl in

our district who caught a cold

by going through some water,

and was in bed five years with

costiveness and rheumatic pains,

and had to have an attendant

to watch by her. There was

not a doctor in the surrounding

district to whom her mother

had not applied to relieve her

child, but every one crossed

themselves and said they could not

help her. Whenever the little bell rang, which is rung in our place when anybody is dead. we thought

surely it was for her; but Seigel's

Syrup and Pills (Shaker Extract of

Roots) saved her life, and now she

is as healthy as anybody, goes to

church, and can work even in the

fields. Everybody was astonished

when they saw her out, knowing

how many years she had been in

bed. To-day she adds her grati-

tude to mine for God's mercies and

The Mason Cylinder Gin.

Atlanta, Ga.

Mr. R. Rivers Lawton, who plants the Cravat place, near Otranto, has one of the Mason cylinder gins at his ginnery. He says that there is no question that the lint turned out is of a much superior quality to that turned out by a saw gin. He says that less power is required to run the Mason gin, and he thinks that there is not any question that the Mason cylinders as now constructed are thoroughly durable. Up to a few days ago Mr. Lawton was of the opin-ion that the Mason gin did not clean the seed quite so well as the saw gin, but he does not think so now. In a test by gin-ning 300 pounds of seed cotton on it, and the same amount on a saw gin, the yield was five per cent. in favor of the Mason gin.
